

From the simplest to the complex, Jesco does it best!

If you don't find a unit to meet your needs from our large selection of standard models, just give us a call and we will design and build a unit to meet your specific requirements. Pictured below are just a few of the special hoppers we've manufactured over time:

SPECIALS

Self dumping hopper mounted to standard skid. Designed for use with automated storage and retrieval systems.

Self dumping hopper with polyurethane casters and special bail coupler tow hitch.

Special self dumping hopper with heavy duty structural base and hood. For use in glass recycling.

12' wide special low profile self dumping hopper used to handle long strips in shearing operation.

Tapered front self dumping hopper with special low clearance outrigger base and heavy duty 3-way entry fork tubes.

Towable rollover container with drop gate. Used in waste treatment plant.

Special low profile chip & waste truck. Designed to fit under turning machine or press.

Extra heavy duty container fabricated from 3/8" plate. Designed for transport with overhead crane and to be emptied with rollover attachment on forklift. Used by bearing manufacturer.

JESCO HUSKY DUMPER®

Over 40 models to choose from!

All-welded self dumping hoppers handle bulk materials and scrap easily. Can be moved with a forklift or rolled on casters. **Must use forklift of proper capacity rating to empty hopper.** The narrow models are designed to fit into tight spaces without losing load capacity. **Big space saver** when shipping by truck, they can be loaded two wide and stacked. Handle is one piece. Jesco dump hoppers are engineered to dump when the locking mechanism is tripped, and to return to the upright locked position when empty.

Safety retaining chain and remote trip rope are standard on all units. Painted Vista Green. **Packaging is optional (at extra charge).**

Warning: Always observe all safety rules of your company, OSHA, ASME, ITA and the manufacturer of the forklift. Dumpers are to be used by properly trained personnel only.

If your existing Jesco hoppers are missing their safety labels, call 1-800-609-8289 and they will be replaced at NO CHARGE.

DUMPS ITSELF

RIGHTS ITSELF

LOCKS ITSELF

• **Big Labor Savers**

• **All-Welded Construction**

• **Strong and Durable**

• **Heavy Duty Rocker Stops**

STANDARD FEATURES:

- Safety retaining chain
- Remote trip rope assembly
- Safety latch
- Green color

OPTIONAL:

- Casters for units up to 2½ cu. yards
- Lids 1 to 2½ cu. yards
- Paint colors:
 - Red, OSHA Blue, Black, Light Gray,
 - Dark Gray, Orange, Yellow.
- 3-Way entry
- Bolt on casters
- Left hand release

Safety retaining chain and trip rope store conveniently on the back of the unit when not in use.

Special bases required when ordering casters on certain hoppers

Hoppers marked with two asterisks (**) require special bases (part no. 230600) in order to be equipped with casters. These special bases are in addition to the price of the hopper, as are the casters.

Contact a sales representative for further information and pricing.

JESCOHUSKYDUMPER® LIDS

Lids are optional on units up to 2 1/2 cubic yard capacity. These units help in meeting environmental regulations and insurance codes. Contents of hoppers stay out of sight for a neater appearance.

Two piece lids are available for 1 cu. yd. through 2 1/2 cu. yd. capacity hoppers. Specify type A or type C lid.

Not available on low profile or narrow hoppers.

14 gauge material. Painted Vista Green.

Type A
Front half opens only

Type C
Both halves open

220054	1 1/2 cu. yd.	92 lbs
220064	2 cu. yd.	106 lbs
220074	2 1/2 cu. yd.	106 lbs

JESCOHUSKYDUMPER® CASTER OPTIONS

Hoppers with casters are easy to roll. Available in three types: Semi Steel (SS), Phenolic (PH) or Moldon Rubber (MR). Casters provide mobility on most surfaces.

Other caster options available.

Casters are welded to base of hoppers unless otherwise specified.

Capacity must match or exceed capacity of hopper.

JESCOHUSKYDUMPER® Flat Deck Open-Sided With Extended Fork Pockets

7 gauge body

8 gauge base

Non-stackable

Non stock item, manufactured to order

These units are designed for long materials to be placed on the flat deck for ease of stacking. Ideal use for this unit is for plasma or laser skeletons.

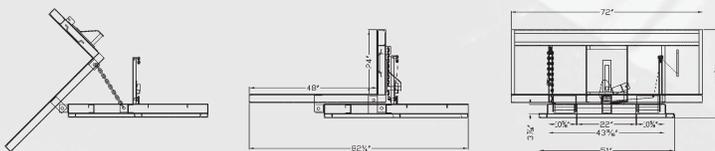

The extended fork pockets bring the overall length from back against the forklift mast to the front edge of deck platform at 82¹/₄" and with a base chain underneath deck attached to the base.

With safety in mind this unit has a safety latch, trip handle, trip rope assembly and a safety retaining chain.

A forklift must be used to transport material.

Deck size 48" x 72". Back wall 24" high.

Unit is rated at 3000 lbs capacity.

Part No	Dimensions	Fork Openings	Weight
211900	82 ¹ / ₄ "L x 72"W x 32 ⁷ / ₈ "H	3 ⁷ / ₁₆ " X 10 ⁵ / ₈ " X 32 ⁵ / ₈ " OC	865 lbs

JESCO HUSKY DUMPER® Filter Press Hopper

7 gauge body

1/4" base

Non-stackable

Non stock item, manufactured to order

NEW!

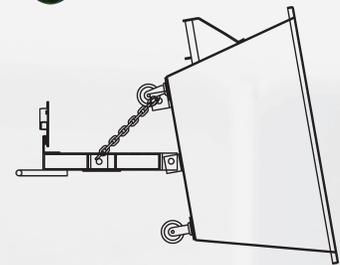

The specialty Filter Press Hopper is used after the waste water has been eliminated and the filter cake is left.

Box is tapered front and back, square sides sitting on a forklift base. Safety retaining chain, safety latch, trip handle and a trip rope assembly installed on unit.

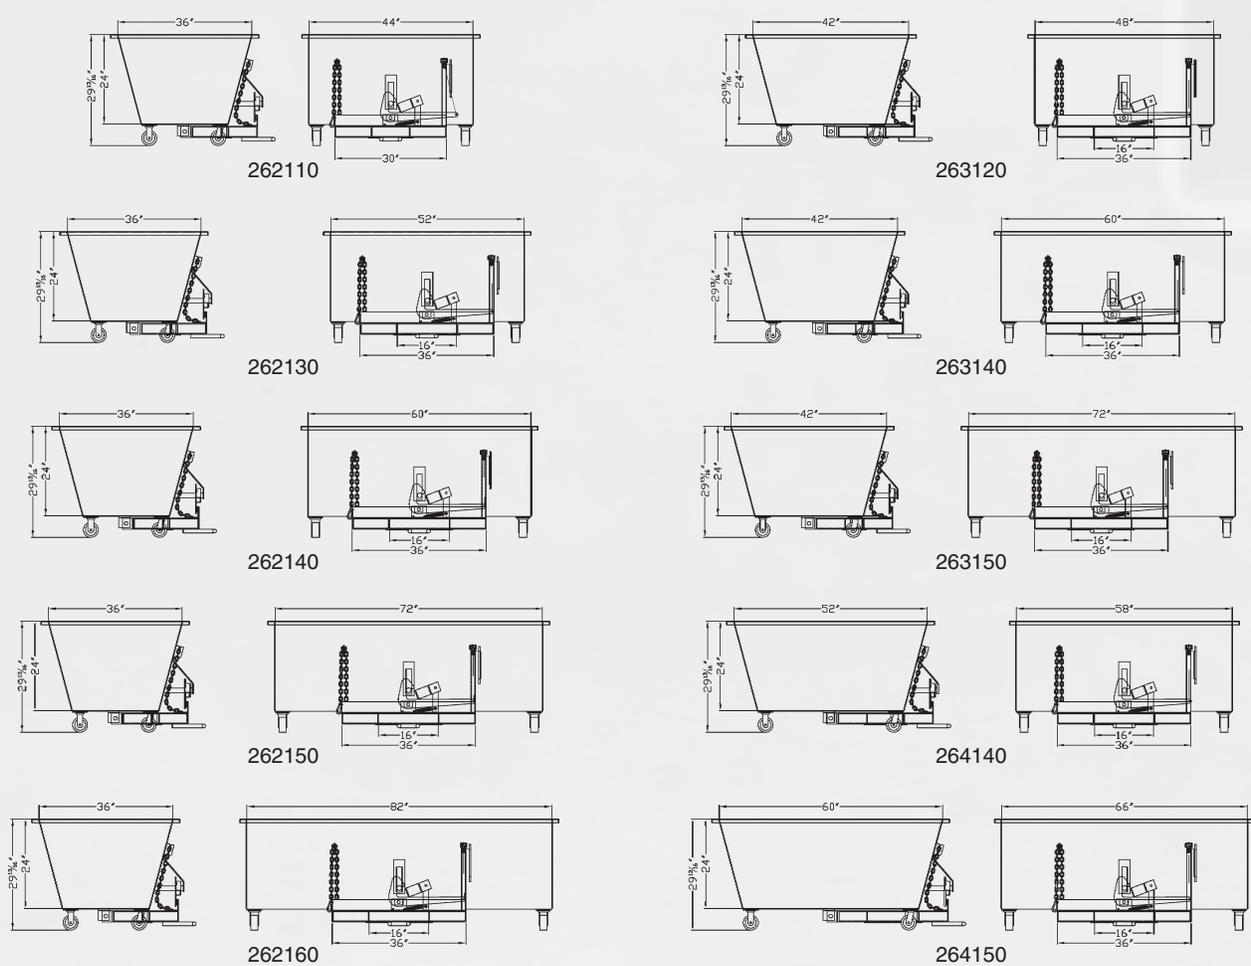

Mobility made easy with 4" x 2" polyurethane casters (non-marking) to position unit where needed. A forklift must be used to empty contents.

The Filter Press Hopper has been rated at 2800 lbs capacity.

Painted Vista Green.

JESCO HUSKY DUMPER® Side Pivot Hopper

7 gauge body and base 8 gauge fork pockets Non-stackable Non stock item, manufactured to order

This side pivot hopper is a specialty unit with shortened fork pockets and sloped front edge will allow the bucket to pivot between the casters to empty the contents.

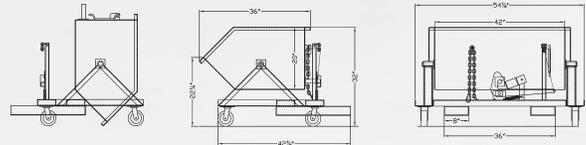

The overall height of the unit with the 5" x 2" phenolic swivel casters is only 32".

Safety latch, trip handle, safety retaining chain and a trip rope assembly which is standard on all JESCO hoppers.

A forklift must be used to transport and empty the contents of the unit. Unlike most JESCO HUSKY DUMPERS this unit will require manual return of the bucket; the bucket will then engage the handle and the operator returns the safety latch to the locked or closed position ready for the next use.

The Side Pivot Hopper is rated at 4000 lbs capacity.

Painted Vista Green.

Part No	Dimensions	Fork Openings	Weight
215000	49"L x 54 ⁷ / ₈ "W x 32"H	3" X 8" X 28" OC	420 lbs

JESCO HUSKY DUMPER® Low Profile Portable Hopper

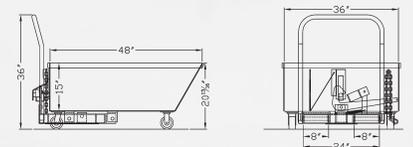

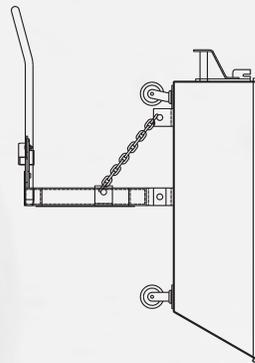

7 gauge body 1/4" base Non-stackable Non stock item, manufactured to order

With its low profile it is ideal for placement under machinery for catching shavings, steel slugs, or holding small parts. Unit is welded watertight.

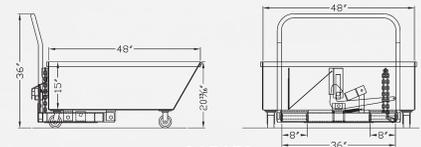

The push handle and 4" x 2" phenolic casters allow for easy maneuvering into place.

This unit dumps a full 90 degrees for full and complete content removal.

Safety chain is used underneath the unit to secure bucket to the base. Safety latch, trip handle, trip rope assembly and safety retaining chain are standard on all JESCO hoppers. This Low Profile Portable Hopper has been rated at 2800 lbs capacity. Painted Vista Green.

JESCOHYDRATILT™ DUMPERS

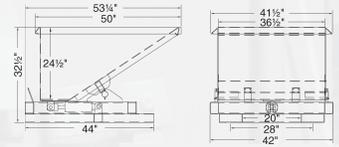

The time tested construction of **JESCOHUSKYDUMPER** is now available in hydraulically controlled dumping hoppers. These units are **ideal where control of the quantity of material dumped or the speed of discharge is critical**. They **operate off the hydraulic system of your forklift and come complete with quick-disconnects for easy attachment to the forklift**. The operator controls the unit from the forklift seat.

Fork pockets are spaced 28" on center.

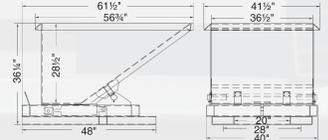

Available in 1/2, 3/4, 1, 1 1/2 and 2 cubic yard capacities. All units have a 4000 lbs weight capacity.

Painted Vista Green.

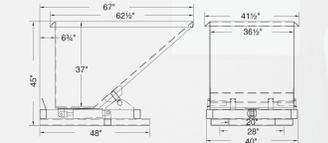

Manufactured to order, 8 weeks minimum lead time.

jesco® ROTATOR BOX

7 gauge body

7 gauge fork pockets

Non-stackable

Non stock item, manufactured to order

The Rotator box is designed for the collection and storage of bulk material. The 6,000 lbs capacity box can be dumped with a rotating fork attachment (not included); fork openings are 3"x8". Box is manufactured from 7 gauge steel.

Available in 1 cubic yard to 2.67 cubic yards to handle all your bulk material handling requirements. The seams are continuously welded.

This rotating box will reduce operation cost, increase productivity and provide a safe method of material handling. Custom engineered and special designs are available. Contact our engineering and sales staff to discuss your specific needs and ideas.

Applications: shredded material, recycled material, bulk material storage.

Optional lifting lugs and casters.

6000 lbs capacity.

Painted Vista Green.

jesco® TOWABLE ROTATOR BOX

7 gauge body

7 gauge fork pockets

Non-stackable

Non stock item, manufactured to order

Towable Rotator Box is designed for the collection and storage of bulk materials. The towing tongue (wishbone style) is towable and rolls on 8"x2¹/₂" Polyurethane casters. Four different sizes are available to handle all your bulk handling of your material.

Fork openings are 3" x 8" to be used with a forklift with a rotator attachment (not included). The box has seams continuously welded.

Custom engineering and custom design assistance is available to fulfill your special project requirements.

Applications: Machine shops managing shredded material, recycling material, bulk material storage.

6000 lbs capacity.
